

IS GOD GREEN?

AN EVENING OF CONVERSATION AND DISCUSSION

Thursday 26th April at 7.30pm

Part of the Centenary Celebrations Programme at Trinity-Henleaze United Reformed Church

- **Climate Change**
- **Pollution**
- **Diminishing sources of energy**
- **Destruction of natural habitats**

How can we make a difference? Can we make a difference?
How can we save our planet? What does this mean locally?
Whether your horizons are close to home or further afield, the issues of sustainability are impacting all of our lives.

We invite you to come and participate in a community discussion about these important issues that affect the world we live in and our way of life. With the help of a professional facilitator, Chris Sunderland, we will explore together:

- What separates the fact from the fiction?
- What's really at stake?
- What changes are we prepared to make?
- Can the Christian faith offer any useful insights?

Please come and join us for an informative and stimulating evening at Trinity-Henleaze United Reformed Church, Waterford Road, Henleaze.

Light refreshments will be served
